

SEEKING NOMINATION: Help yourself.

When you ask nec-adjudicators.org to nominate an adjudicator for an NEC contract you are asked to do two things at least:

1. Tell us who you think is best suited to be the adjudicator and why. Make representations to nec-adjudicators.org and if you have the persons CV send it (we probably know the person anyway).

2. Tell us what the dispute is about:

- IF the 'Notice of Adjudication' is served, send it.
- IF there is correspondence about the dispute send it.
- IF a position paper is already served, send it.
- IF a Referral is already drafted, send the narrative (not the supporting files).
- Send the data pages from the NEC Contract, if available.

The more we are told about the dispute, the better chance you have of us nominating the 'right' adjudicator.
